

**Anton Zur** is the Head of Transaction Banking Department in Sberbank Europe AG, Vienna. He is also the Founder of HumanVenture Global SA, an impact investing platform, founder of HumanityToken.net project and a co-Founder of Impact Investors Association of Russia.

His **professional background** includes 20+ years of experience in international banking (Export Credit Agencies, Trade Finance) in Russia and Austria. He has contributed to development of international financing schemes to facilitate trade and economic cooperation of Russia with various countries in Europe, North America and Asia.

In **his professional work**, he led multiple international financing projects for the total amount of over USD 5 billion.

Besides, as a part of his involvement in HumanVenture, he initiated and led, together with partners, launch of Token4Hope, a pilot implementation of Humanity Token model, a transparent blockchain-based donation platform in Austria (Austrian e-Award – 2019 for Social Responsibility).

In **his research work**, he is connecting the use of systems thinking, investments and entrepreneurship with disruptive technologies, such as blockchain and AI, to provide value added in development of global infrastructure aimed at resolution of most acute challenges of humanity, such as poverty, climate change, environmental pollution, etc.

He is passionately involved in activities of Russian Impact Investors Association and promotion of investments in sustainable development internationally.
